AI for YOU

More capacity. More possibility.

Practical AI, built around your business.

We don’t start with AI.

We start with understanding your business.

WHO WE ARE

Business insight. Applied AI.

Rimon Advisory works with businesses on R&D Tax Incentives, grants and innovation advisory. Rimon AI brings a practical AI focus: helping teams use existing tools or build tailored solutions around the way they work.

WHY RIMON AI

01

Business first

Your goals, people and processes guide the solution.

02

Practical delivery

Existing AI or custom AI, matched to the problem.

03

Commercial focus

Measure time saved, cost reduced and value created.

The right AI. For your business.

From everyday tools to connected, custom solutions.

01 / EXISTING AI

Make more of proven platforms.

Put established tools to work on everyday tasks and repetitive workflows.

ChatGPT, Microsoft Copilot
Claude and Gemini
Microsoft 365 and Power Automate

02 / CUSTOM AI

Build around your business.

Connect information, automate processing and deliver useful outputs in your systems.

Internal GPTs and knowledge assistants
Document intelligence and business agents
Workflow dashboards and client portals

A clear path from opportunity to impact.

1 → 2 → 3 → 4 → 5

Understand

Your business, people and systems.

Discover

Where AI can create real value.

Design

The right solution for the way you work.

Automate

Implement, connect and test workflows.

Improve

Measure outcomes and refine delivery.

Secure. Governed. Scalable.

Plan access, data handling and human review around your business. Integrate with the systems you use, then support and improve the solution as your needs evolve.

Connected information. Clearer decisions.

ILLUSTRATIVE USE CASES

01 Finance & invoice visibility

CONNECT

Accounting platform + supplier invoices

→

PROCESS

Extract invoice details, match records and flag exceptions for review.

→

Finance overview	
Invoices	Review
Matching	Exceptions
Approvals	Pending
